Proflora RESTORE benefits

- Formulated for supporting digestive health of adults
- High potency formulation with 11 selected strains
- Helps to restore the digestive balance e.g. following antibiotic intake
- Synbiotic formulation with a prebiotic
- Does not require refrigeration

Proflora RESTORE contains 11 probiotic strains naturally occurring in a well balanced gut and important for maintaining a healthy digestive system.

ProTarget Probiotic Delivery

The low pH in the stomach can easily destroy the probiotics. The Proflora RESTORE capsule is protected by a patented enteric coating - ProTarget.

In vitro tests with Proflora RESTORE have demonstrated that ProTarget provides significant protection of the probiotics from stomach acids and assures target delivery and release of viable probiotics in the intestines - right where they are needed.

Probiotics

The human digestive system contains billions of friendly bacteria, often referred to as probiotics. Probiotics play a vital role in maintaining a healthy balance and normal functioning of the digestive system.

As we age, the amount of beneficial bacteria in the digestive system diminishes, making us more prone to gastrointestinal infections and discomfort. Some studies have shown that the level of beneficial bacteria of a 60 year old person can be one thousandth of that of a younger adult. The delicate balance of the digestive system may easily be disrupted by a number of factors such as antibiotics, hectic lifestyle, ageing, travel, environmental change and change of diet.

Results from numerous research studies show that regard less of age a daily intake of probiotics can help restore and maintain a healthy digestive balance and improve digestive comfort.

1 Proflora RESTORE capsule contains

Min. 5×10^8 viable *Bifidobacterium bifidum*, *Bifidobacterium longum*, *Bifidobacterium actis*, *Lactobacillus acidophilus*, *Lactobacillus plantarum*, *Lactobacillus rhamnosus*, *Lactobacillus salivarius*, *Lactobacillus casei*, *Lactobacillus bulgaricus*, *Lactococcus lactis*, *Streptococcus thermophilus* in a proprietary blend of Maize starch, Maize starch pregelatinized, Hypramellose, Oligofructose (FOS), Shellac, Magnesium stearate, Titanium dioxide, Alginate acid, Triethyl citrate, Logst bean gum, Olive oil.
